# DECADES OF EXCEPTIONAL YIELDS

## → THREE VITAL NUTRIENTS THREE PRODUCT OPTIONS:

- K-Mag® Premium, Granular and Standard potash help develop healthy root systems
- All three are excellent sources of non-chloride potassium (K), water-soluble magnesium (Mg) and sulfur (S)
- With less than 3% chloride (Cl<sup>-</sup>) content, the potential for fertilizer “burn” is minimized

## → STRENGTH OF SECONDARY NUTRIENTS:

- The combination of magnesium with potash builds resistance to winter kill and insects
- Magnesium activates a large number of enzymes aiding in synthesis of chlorophyll, while sulfur aids in the formation of amino acids

## → PERFORMANCE YOU CAN COUNT ON:

- K-Mag has over 80 years of proven performance
- It improves crop quality and increases yields across a variety of crops and soil conditions
- Available in three unique grades, K-Mag matches your crops' specific needs, improving effectiveness
